The tactics used to peddle the Climate scare and the Covid scare are identical.
A huge scare campaign, with the only "saviour" being surrendering freedoms and handing the globalists more power to control everyone's lives - while censoring any dissent as "misinformation".
The public have woken up the Covid lies - and slowly they are waking up to the Climate lies.

Are you asking how long the vax lasts in the body ? I don't know if they even know . The vax particles probably don't stay for more than 2 weeks but there are studies showing the RNA sequence gets integrated into hepatocyte DNA which would means stays in forever

Israel's "New Pearl Harbor"
The foreboding rhetoric from the Netanyahu regime parallels that which was written by the neocon think tank led by the architects of the War On Terror.

> Further, the process of transformation, even if it brings revolutionary change, is likely to be a long one, absent some catastrophic and catalyzing event – like a new Pearl Harbor. Domestic politics and industrial policy will shape the pace and content of transformation as much as the requirements of current missions.

American Troops Do Not Want to Sacrifice Their Lives for Israel- Exclusive

October, 15, 2023 - 00:18 | Politics news

----Original Message----
From: Hokanson, Daniel R.
Sent: Friday, October 13, 2023 3:18 PM
To: [redacted]
Subject: Troop Sentiment RE: Israel

[redacted]

Hey [redacted]

I want to set up a meeting to discuss something concerning I'm hearing from Tony. Apparently, there is growing anti-Semitism among the enlisted troops who are openly stating they're against Israel and not willing to put their lives on the line for them. With Trump's remarks against Netanyahu on Wednesday, this problem is only going to get worse. We need to come up with a strategy to deal with this and rally the troops in support of Israel against HAMAS. I think it best we try to get ahead of this, as Tony believes it is becoming an issue.

When I spoke to Ori shortly after the attack, he expressed concerns about the Republicans in Congress and if they would hinder full support from the U.S. I tried to assuage his concerns but he's not wrong. CENTCOM told me Tuberville's hold is having a major impact on their operations. CENTCOM has limited forces and was not expecting a hot war to break out in the region. This, combined with the lack of confirmed leadership positions, means CENTCOM will not be able to support Israel should this turn into a multi-front war if Hezbollah enters the fray. To be honest, if Hezbollah or other players enter the war, Israel won't be able to defend themselves either. Let's pray that doesn't happen.

Let me know if you have any suggestions and let's try to get the key players together for a meeting on Monday.

Thanks in advance.

REAL-WORLD EPIDEMIOLOGICAL EVIDENCE COLLABORATION AGREEMENT

This REAL-WORLD EPIDEMIOLOGICAL EVIDENCE COLLABORATION AGREEMENT dated as of January 6, 2021 (this "**Agreement**") by and between the Israeli Ministry of Health, acting on its own behalf and on behalf of the State of Israel (the "**MoH**"), and Pfizer Inc., a Delaware corporation (together with its Affiliates, "**PFIZER**") (each, a "**Party**" and, collectively, the "**Parties**").

WHEREAS, PFIZER and BioNTech SE, a company organized and existing under the laws of Germany are collaborating to develop a vaccine to address the global COVID-19 pandemic; and

WHEREAS, the Parties had previously entered into the confidential Manufacturing and Supply Agreement dated [redacted] (the "**Manufacturing and Supply Agreement**"), under which MoH agreed to purchase the Product (as defined below) and PFIZER agreed to manufacture and supply the Product, all in accordance with the terms of the Manufacturing and Supply Agreement, and subject to certain conditions precedent, including but not limited to certain regulatory approvals and supply availability; and

WHEREAS, under Section 2.1(f) of the Manufacturing and Supply agreement, the Parties agreed to cooperate on a reasonable basis to share information and data regarding the distribution, administration and use of the Product, including to track its benefits; and

WHEREAS, PFIZER has obtained certain conditional approvals for the Product, including under Regulation 29(a)(9) of the Israeli *Pharmacist Regulations (Medical Preparations)*, 1986, as amended, and analogous emergency use authorizations in other jurisdictions; and

WHEREAS, the Parties agree that it would be highly beneficial from a public health perspective to track pandemic data in accordance with vaccination compliance in a Real-World context to evaluate whether herd immunity protection is observed during the Product vaccination program rollout.

NOW THEREFORE, for and in consideration of the premises and mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto intending to be legally bound, hereby agree as follows:

BREAKING 🚨 Confidential **agreement** between **Israel/Pfizer** - they all acknowledged "the vaccine may not be successful due to technical, clinical, regulatory, manufacturing or other challenges of failures"... Despite this it was pushed as "safe and effective" @rcmpgrcpolice

Pfizer ("**Pfizer**" or "**Supplier**") and BioNTech are currently in clinical development of BNT162, an mRNA vaccine directed against SARS-COV2 to prevent COVID-19 infection in humans with four different vaccine candidates being tested (the "**Vaccine**").

The Vaccine is being evaluated as a potential two dose regimen [redacted]. Subject to clinical success, Pfizer and BioNTech anticipate potential approval from the US Food & Drug Administration ("**FDA**") and/or European Commission ("**EC**") initially under emergency use authorization or other form of regulatory approvals (individually referred to as "**Conditional Approval**") and to ship and supply the Vaccine under Special Procedure 29 (or under other legal procedure) as early as Q4 2020 ("**29 Approval to Supply**"). Pfizer will use commercially reasonable efforts (as defined in the Definitive Agreement) to file an application to obtain the 29 Approval to Supply in Israel within [redacted] of receipt of Conditional Approval.

The Israeli Ministry of Health ("**MOH**") wishes to explore arrangements to secure Vaccine supply for Israel during the pandemic period.

MOH acknowledges and agrees that Supplier's efforts to develop and manufacture the Vaccine are aspirational in nature and subject to significant risks and uncertainties. Notwithstanding the efforts and any estimated dates set forth in this Binding Term Sheet, the Parties recognize that the Vaccine is currently in Phase 2/3 clinical trials and that, despite the efforts of the Supplier in research, and development and manufacturing, the Vaccine may not be successful due to technical, clinical, regulatory, manufacturing or other challenges or failures.

Accordingly, Supplier shall have no liability for any failure by Supplier to develop or obtain regulatory approval or authorization of the Vaccine in accordance with the estimated dates described in this Binding Term Sheet. Even if the Vaccine is successfully developed and obtains regulatory approval or authorization, Supplier shall have no liability for any failure to deliver doses in accordance with any estimated delivery dates set forth herein (other than as set out in the Advance Payment section of this Binding Term Sheet), nor shall any such failure give MOH any right to cancel orders for any quantities of Vaccine (other than as set out in the Orders & Delivery section of this Binding Term Sheet).

MOH further acknowledges that the Vaccine and related materials are being rapidly developed due to the emergency circumstances of the COVID-19 pandemic, and will continue to be studied after provision of the Vaccine to Israel under the Agreement. MOH also acknowledges that the long-term effects and efficacy of the Vaccine are not currently known and that there may be adverse effects of the Vaccine that are not currently known.

This Binding Term Sheet records the terms between Pfizer and MOH in respect of the supply of the Vaccine but the parties acknowledge that these terms are proposed as the basis for concluding a definitive agreement (the "**Definitive Agreement**"). The provisions of this Binding Term Sheet include all of the essential terms but do not describe all the terms and conditions that would be included in the Definitive Agreement. The legal effect of this document is set out below.

Notwithstanding the efforts and any estimated dates set forth in this Binding Term Sheet, the Parties recognize that the Vaccine is currently in Phase 2/3 clinical trials and that, despite the efforts of the Supplier in research, and development and manufacturing, the Vaccine may not be successful due to technical, clinical, regulatory, manufacturing or other challenges or failures.

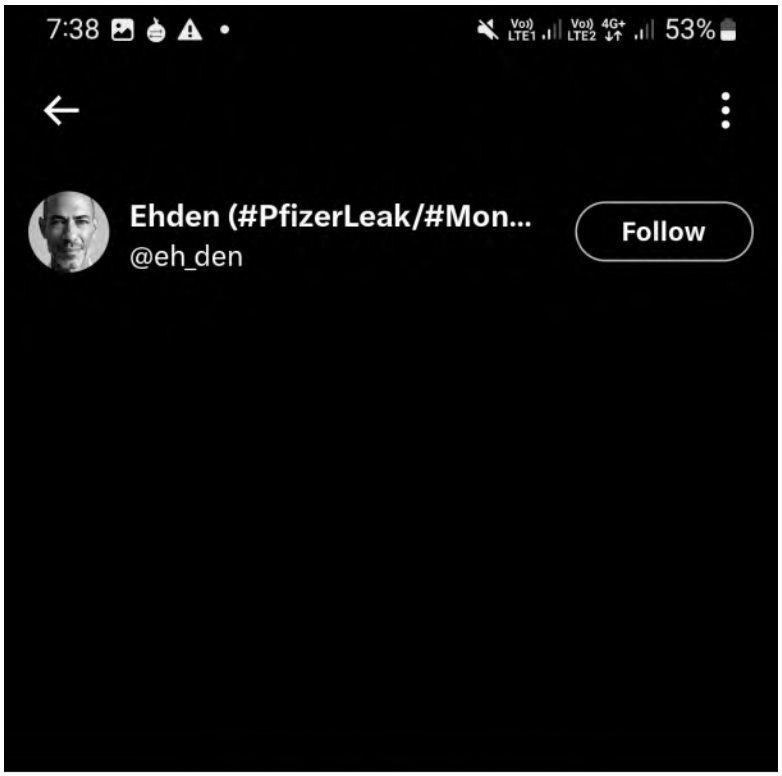

Accordingly, Supplier shall have no liability for any failure by Supplier to develop or obtain regulatory approval or authorization of the Vaccine in accordance with the estimated dates described in this Binding Term Sheet. Even if the Vaccine is successfully developed and obtains regulatory approval or authorization, Supplier shall have no liability for any failure to deliver doses in accordance with any estimated delivery dates set forth herein (other than as set out in the Advance Payment section of this Binding Term Sheet), nor shall any such failure give MOH any right to cancel orders for any quantities of Vaccine (other than as set out in the Orders & Delivery section of this Binding Term Sheet).

MOH further acknowledges that the Vaccine and related materials are being rapidly developed due to the emergency circumstances of the COVID-19 pandemic, and will continue to be studied after provision of the Vaccine to Israel under the Agreement. MOH also acknowledges that the long-term effects and efficacy of the Vaccine are not currently known and that there may be adverse effects of the Vaccine that are not currently known.

This Binding Term Sheet records the terms between Pfizer and MOH in respect of the supply of the Vaccine but the parties acknowledge that these terms are proposed as the basis for concluding a definitive agreement (the **"Definitive Agreement"**). The provisions of this Binding Term Sheet include all of the essential terms but do not describe all the terms and conditions that would be included in the Definitive Agreement. The legal effect of this document is set out below.

This REAL-WORLD EPIDEMIOLOGICAL EVIDENCE COLLABORATION AGREEMENT dated as of January 6, 2021 (this "**Agreement**") by and between the Israeli Ministry of Health, acting on its own behalf and on behalf of the State of Israel (the "**MoH**"), and Pfizer Inc., a Delaware corporation (together with its Affiliates, "**PFIZER**") (each, a "**Party**" and, collectively, the "**Parties**").

WHEREAS, PFIZER and BioNTech SE, a company organized and existing under the laws of Germany are collaborating to develop a vaccine to address the global COVID-19 pandemic; and

WHEREAS, the Parties had previously entered into the confidential Manufacturing and Supply Agreement dated [redacted] (the "**Manufacturing and Supply Agreement**"), under which MoH agreed to purchase the Product (as defined below) and PFIZER agreed to manufacture and supply the Product, all in accordance with the terms of the Manufacturing and Supply Agreement, and subject to certain conditions precedent, including but not limited to certain regulatory approvals and supply availability; and

WHEREAS, under Section 2.1(f) of the Manufacturing and Supply agreement, the Parties agreed to cooperate on a reasonable basis to share information and data regarding the distribution, administration and use of the Product, including to track its benefits; and

WHEREAS, PFIZER has obtained certain conditional approvals for the Product, including under Regulation 29(a)(9) of the Israeli *Pharmacist Regulations (Medical Preparations)*, 1986, as amended, and analogous emergency use authorizations in other jurisdictions; and

WHEREAS, the Parties agree that it would be highly beneficial from a public health perspective to track pandemic data in accordance with vaccination compliance in a Real-World context to evaluate whether herd immunity protection is observed during the Product vaccination program rollout.

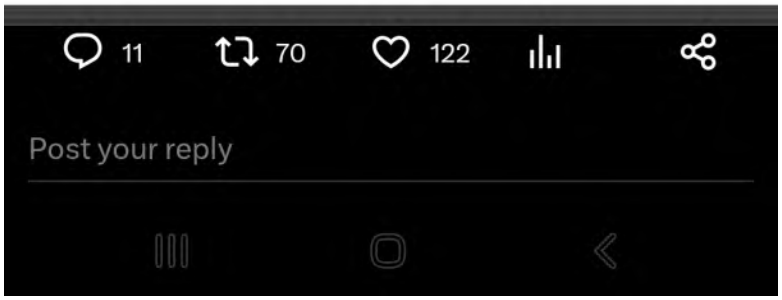

NOW THEREFORE, for and in consideration of the premises and mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto intending to be legally bound, hereby agree as follows:

1. DEFINITIONS

The following terms shall have the meanings assigned to them for all purposes of the Agreement.

1.1 "Affiliate" means, with respect to each Party or, if applicable, BioNTech, any corporation, firm, partnership or other entity or person which directly or indirectly controls or is controlled by or is under common control with the named Party, including but not limited to Pfizer US, or, if applicable, BioNTech. For purposes of this definition, "control" (including, with correlative meaning, the terms "controlled by" and "under common control with") shall be presumed to exist if one of the following conditions is met: (a) in the case of corporate entities, direct or indirect ownership of at least fifty percent (50%) of the stock or shares having the right to vote for the election of directors of such corporate entity or any direct or indirect parent of such corporate entity, and (b) in the case of non-corporate entities, direct or indirect ownership of at least fifty percent (50%) of the equity interest with the power to direct the management and policies of such non-corporate entities.

1.2 "Global Trade Control Laws" means the U.S. Export Administration Regulations; the U.S. International Traffic in Arms Regulations; the U.S. economic sanctions rules and regulations implemented under statutory authority and/or the President's Executive Orders and administered by the U.S.

Vaccination Hesitancy Increasing Among Pregnant Women

Emily Harris

Article Information

JAMA. Published online October 18, 2023. doi:10.1001/jama.2023.19800

More pregnant women in the US were hesitant to receive common vaccinations in 2022 to 2023 compared with 2021 to 2022, researchers reported in the *Morbidity and Mortality Weekly Report*. Women who reported being "very hesitant" to receive the influenza vaccine increased from 17% to 25% during that period, while hesitancy to receive the tetanus toxoid, reduced diphtheria toxoid, and acellular pertussis (Tdap) vaccine rose from 15% to 20%, according to survey data from 1814 pregnant women aged 18 to 49 years.

Pregnant women who receive these vaccines, as well as COVID-19 vaccines, can reduce their own risk of infection as well as that of their children, the researchers noted.

Around half of respondents stated they had been vaccinated against influenza and pertussis, tetanus, and diphtheria before or during their pregnancy, but only about a fourth had received a COVID-19 bivalent booster dose.

Pregnant women whose clinicians recommended that they get vaccinated were less hesitant, so the researchers suggested that encouragement by clinicians as well as informative conversations with patients to address vaccine hesitancy "could reduce adverse maternal and infant illness and death from vaccine-preventable diseases."

Gujarat sees 58 cardiac cases on Navratri Day 1

Ahmedabad: On the first day of Navratri, data from EMRI 108 emergency services suggested that Ahmedabad city recorded 14 cardiac emergencies between 6 pm and midnight on Sunday, while there were 58 similar cases reported from across the state.

The figures for both Ahmedabad and Gujarat are within "normal range of plus or minus 10% when compared to normal days," said a senior EMRI official. "The progression of Navratri in the following week will indicate whether festivities coincided with a spike in heart-related emergencies," said the official, adding that breathing problems were another significant category with the

UNITED NATIONS, Oct 18 (Reuters) - The United States vetoed a United Nations Security Council resolution on Wednesday that would have called for humanitarian pauses in the conflict between Israel and Palestinian Hamas militants to allow humanitarian aid access to the Gaza Strip.

The vote on the Brazilian-drafted text was twice delayed in the last couple of days as the United States tries to broker aid access to Gaza. Twelve members voted in favor of the draft text on Wednesday, while Russia and Britain abstained.

"We are on the ground doing the hard work of diplomacy," U.S. Ambassador to the United Nations, Linda Thomas-Greenfield, told the 15-member council after the vote. "We believe we need to let that diplomacy play out."

"Yes, resolutions are important. And yes, this council must speak out. But the actions we take must be informed by the facts on the ground and support direct diplomacy efforts. That can save lives. The council needs to get this right," she said.

Washington traditionally shields its ally Israel from any Security Council action.

"We have just been witnesses once again of hypocrisy and the double standards of our American colleagues," said Russia's U.N. Ambassador Vassily Nebenzia. A Russian-drafted resolution that called for a humanitarian ceasefire failed to pass on Monday.

U.N. Secretary-General Antonio Guterres on Wednesday called for an immediate humanitarian ceasefire to allow for the release of hostages and humanitarian aid access to Gaza.

Global Health Security Agenda in India

Quarterly Newsletter

April 3, 2017 Vol. 4

Message from Dr. Jagdish Prasad, Director General of Health Services

Due to interconnectivity through globalized travel and trade, the world has become like a "global village". As a result, spread of infectious diseases has become an increasing public health threat. The Global Health Security Agenda (GHSA) was launched in February, 2014 to help create a world safe and secure from threats of infectious diseases and to elevate global health security as a global priority. India is one of the initial members of GHSA and also a member of the Steering Group.

The Ministry of Health and Family Welfare (MoHFW), Government of India in partnership with the US Centers for Disease Control & Prevention (CDC), is working to build the nation's capacity to prevent, detect and respond to infectious diseases and other public health threats before they spread. I am happy to see the progress made by GHSA partners over a year. The purpose of publishing this quarterly newsletter is to keep all stakeholders updated about the work being done under GHSA projects.

I congratulate Dr. Kayla Laserson, all GHSA partners and GHSA Cell for making tremendous progress in implementing GHSA projects. The key spirit of GHSA is about **shared values, aspirations and responsibilities.**

Message from Dr. Kayla Laserson, Country Director CDC-India

India was one of the first of now more than 40 countries to initiate GHSA, and immediately took on a leadership role. 17 government, private, non-governmental and multilateral organizations have received a total of approximately $30 million US dollars from CDC to implement the eleven GHSA action packages, all designed to improve and strengthen the nation's capacity to detect, respond and prevent pathogens. I wish to thank all the partners and the Ministry of Health and Family Welfare for the impressive progress made, and I wish to acknowledge and thank the Ministry of Health & Family Welfare for the creation of the GHSA cell-which is an excellent way to ensure maximum coordination and synergies across all GHSA partners in the country. Also I would like to thank Shri C.K. Mishra, Secretary Health and Family Welfare, Dr. Soumya Swaminthan, Secretary, DHR & DG, ICMR and Dr. Jagdish Prasad, DGHS for reviewing all the GHSA projects. Impressive impact of GHSA activities is already evident. We at CDC look forward to seeing these activities continue, and to be reported regularly in this newsletter.

With my warmest regards to all.

GHSA Cell Accomplishments:

- A GHSA Cell has been set up in the Directorate General of Health Services (DGHS). The cell started functioning from Room No. 450, A Wing, Nirman Bhawan, New Delhi on 3rd October, 2016.
- The first Annual Review Meeting of partners of GHSA in India was organised by the Cell on 30th November, 2016 in Hotel Claridges, New Delhi under the chairmanship of Shri C. K. Mishra, Secretary, MoHFW. It was co-chaired by Dr. Jagdish Prasad, DGHS and Dr. Soumya Swaminathan, Secretary, DHR and DG, ICMR. Minutes of the meeting were prepared and circulated to all the concerned.

Homemade cough syrup.👇

1 small mason jar
3 onions
Local honey

Layer onion and then honey until you get to the top.

In 24 hours strain the liquid out and you'll have cough syrup.

ICMR's long-lasting male contraceptive jab passes test

Rema.Nagarajan
@timesgroup.com

The first successful contraceptive for males that provides long-lasting sterility with complete reversibility may no longer be a distant dream. The Indian Council of Medical Research (ICMR) has concluded a seven-year follow-up of 303 healthy male volunteers, which showed that the non-hormonal injectable male contraceptive RISUG (reversible inhibition of sperm under guidance) is safe and efficacious.

According to the results of the open-labelled and non-randomised phase-III study published in the international open access journal Andrology 303 healthy, sexually active and married men (aged 25-40) identified from family planning clinics were injected with 60mg of RISUG. The study found that RISUG's pregnancy prevention was 99.02% without any serious side-effects.

HOW DOES RISUG WORK?

- RISUG is injected into sperm ducts (vas deferens) that carry sperm from testicles to penis
- Once injected, the highly charged polymer sticks to inner walls of sperm duct. When the polymer comes in contact with negatively charged sperm, it ruptures their tails, making them incapable of fertilising eggs
- **Pregnancy prevention 99% without serious side-effects. No adverse effects found on wives of volunteers either**

Facebook is partnering with leaders from the technology, healthcare, global development and academic sectors to establish the Alliance for Advancing Health Online. This new initiative aims to advance public understanding of how social media and behavioral sciences can be leveraged to improve the health of communities around the world.

The partners of the Alliance include the Bay Area Global Health Alliance, the CDC Foundation, Facebook, the MIT Initiative on the Digital Economy, Merck, Sabin Vaccine Institute, the Vaccine Confidence Project at the London School of Hygiene and Tropical Medicine, the World Bank and the World Health Organization. Merck and Facebook are each committing $20 million to this multi-year initiative, which will initially focus on addressing vaccine hesitancy and vaccine equity among underserved communities.

Albert Pike Letter to Mazzini - The Illuminati Plan for World War 3 ...

July 23, 2010. from GeraldCelenteChannel Website. The following is a letter that speculation claimed that Albert **Pike** wrote to Giuseppe **Mazzini** in 1871

to communicate secretly. It was the discovery of this secret that enabled intelligence officers to understand how apparently unrelated 'incidents' took place simultaneously throughout the world which aggravated a situation and developed into a war or revolution.

Pike's plan was as simple as it has proved effective. He required that Communism, Naziism, Political Zionism, and other International movements be organized and used to foment the three global wars and three major revolutions. The First World War was to be fought so as to enable the Illuminati to overthrow the powers of the Tzars in Russia and turn that country into the stronghold of Atheistic-Communism. The differences stirred up by agentur of the Illuminati between the British and German Empires were to be used to foment this war. After the war ended, Communism was to be built up and used to destroy other governments and weaken religions.

World War Two, was to be fomented by using the differences between Fascists and Political Zionists. This war was to be fought so that Naziism would be destroyed and the power of Political Zionism increased so that the sovereign state of Israel could be established in Palestine. During world war two International Communism was to be built up until it equalled in strength that of united Christendom. At this point it was to be contained and kept in check until required for the final social cataclysm. Can any informed person deny Roosevelt and Churchill did put this policy into effect?

World War Three is to be fomented by using the differences the agentur of the Illuminati stir up between Political Zionists and the leaders of the Moslem world. The war is to be directed in such a manner that Islam (the Arab World including Mohammedanism) and Political Zionism (including the State of Israel) will destroy themselves while at the same time the remaining nations, once more divided against each other on this issue, will be forced to fight themselves into a state of complete exhaustion physically, mentally, spiritually and economically. Can any unbiased and reasoning person deny that the intrigue now going on in the Near, Middle, and Far East is designed to accomplish this devilish purpose ?

On August 15, 1871, Pike told Mazzini that after World War Three is ended, those who aspire to undisputed world domination will provoke the greatest social cataclysm the world has ever known. We quote his own written words (taken from the letter catalogued in the British Museum Library, London, Eng.) :

"We shall unleash the Nihilists and Atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil. Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with Christianity, whose deistic spirits will be from that moment without compass (direction), anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view, a manifestation which will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time."

When Mazzini died in 1872, Pike made another Italian revolutionary leader, named Adriano Lemmi, his successor. Lemmi was later succeeded by Lenin and Trotsky. The revolutionary activities of all these men were financed by British, French, German, and American international bankers. The reader must remember that the International Bankers of to-day, like the Money-Changers of Christ's day, are only tools or agents of the Illuminati.

While the general public has been led to believe that Communism is a movement of the workers (Soviets) to destroy Capitalism,

Oct 12, 2023 - European Members of Parliament asked questions of the EMA (European Medicines Agency), revealing that the **EU illegally approved** the use of Covid-19 vaccinations.

FVD International director John Laughland discusses the revelations with MEP Marcel de Graaff, MEP Joachim Kuhs, and Willem Engel.

MEP Marcel de Graaff spoke about Pfizer's **bait and switch** where the experimental vaccine that was tested in clinical trial were **different** from the experimental vaccine that was injected to the population.

*"...and the way we got to this **approval is also completely messed up.** And messed up in a way that really shocked me because **if you approve a batch, a certain vaccine or certain medicine, then you expect that the medicine that is approved is the medicine that is applied to patients or to citizens.** And if there is a difference between that,*

The US will lose the war in the Middle East, the army is weaker than ever

■ The USA will lose the war in the Middle East if Russia, China and Turkey are drawn into it, said the famous American journalist Tucker Carlson in his program on the "X" social network.

"The stakes are much higher than many Americans think. It's easy to imagine in your head that some other parties could be drawn into the conflict between Israel and Hamas. Those countries include Russia, Iran, Turkey, China, Saudi Arabia, the Persian Gulf countries and maybe some others," said American journalist Tucker Carlson in his program on the "X" social network.

"The American military is weaker than ever in the last 50 years. And that will be a problem. Now is not the time for a world-scale war. We will lose it. But our commander-in-chief doesn't understand that," Carlson points out.

2 rules of thumb: 1. If any problem is presented as a global crisis, it is a scam. 2. If dissident voices are silenced, it is a scam.

I knew Covid was a scam when I noticed these things. Especially, doctors easily treating it being silenced. I later determined it doesn't exist.

"Free Palestine." One of the most common slogans of anti-Semitic organizations around the world. A slogan with which many people refer to the State of Israel, the only existing Jewish state, blaming it with racism, apartheid, and the like. For those who do not research deeper, it is easy to get carried away by such calls, which are part of a general campaign of slander against the State of Israel in particular, and against Jews, in general. But trying to trace the basic literal meaning of these words – you

Excellent article about the **FALL OF THE COVID VACCINE MAKERS** written by the amazing @jeffreyatucker

The uptake of the latest version of the COVID vaccines, which underwent almost no testing but were rubber-stamped by regulators anyway, has been far lower than expectations. The CDC is not publishing real-time data but what we know so far suggests that it is in the realm of 2 percent.

This is incredibly low. The most pessimistic prediction I had heard was 5 percent. This is a deep failure by any standard. That is precisely why the numbers are not being advertised. The average person has stopped buying what they are selling.

Initially, the excuse was that drug stores faced logistical problems. Then it was widely suggested that they were too expensive. For a few weeks, such diversions dominated the messaging. But in the end, the reality is here: people just

in the end, the reality is here: people just don't want them.

Now we see why the shot pushers were so intent on mandates wherever and however they could. The makers always claimed that the shots were safe and effective but that bypasses a more fundamental question: were they necessary?

The demographics of risk of COVID have been published and unchanged since February 2020, fully a year before the shots became generally available. By that time, millions were already exposed and gained immunity without the shots.

Italy Says No To Bill Gates! Italy Has Recognized The Health Risks Of Synthetic Foods & Meats & Has BANNED Them ❌

“Italy is the first nation to say no to synthetic food, to so-called synthetic meat. It does so with a formal and official act. The resolutions call for a commitment to ban the production, marketing and import of synthetic foods within our territory.

These regulations aim to regulate situations where the environment or public health could be at risk or when there is uncertainty regarding the effects of certain products that are being or will be introduced to the market or consumed.

It is crucial to have measures in place to address these potential risks and ensure the safety of the environment and public health in such cases.”

“My boyfriend found me in the bathroom last night unresponsive.”

The Covid-19 vaccines cause “microclots”, these are extremely small blood clots that take a long time to develop into something more serious, this is why the vaccinated are suffering & dying 1-2 years after taking the injections.

Greta Thunberg REMOVES picture holding ‘Stand With Gaza’ sign after being accused of antisemitism for having an OCTOPUS Toy in the photo.

The climate change activist has deleted her initial post and re-uploaded it without the stuffed toy.

She posted an explanation on Twitter that “my earlier post can be interpreted as a symbol of antisemitism, which I was completely unaware of.”

She also said she condemns “antisemitism in all forms and shapes.”

Despite her claim, she made no mention of the 1,300 innocent Jewish people killed by Hamas militants or any reference to the 200 civilians currently being held hostage.

The octopus is perceived as antisemitic by some after German cartoonist Josef Plank drew an image of an octopus with its tentacles wrapped around the world and a

JUST IN: The U.S. has conducted a nuclear test in Nevada, hours after Russia revoked their ban on atomic weapons testing.

Bloomberg reports that the test used radioisotopes and chemicals to “validate new predictive explosion models”

The test comes after Putin was seen in Beijing next to his officers who were allegedly carrying his “nuclear briefcase,” something that is very rarely filmed (Reuters).

Nevada has been used for nuclear testing for decades, specifically the Nevada National Security Site which was established in 1951.

Pfizer Clinical Trial Whistleblower: "They Know That This Product Is Dangerous and Hurting People"

Brook Jackson is SUING @Pfizer + @VRG_FortWorth on behalf of the American people for multiple violations under the False Claims Act, and TODAY is the last day for Pfizer to make a motion for dismissal of her case. According to Jackson, the vaccine's FDA authorization resulted from a 'deeply flawed' clinical trial that violated FDA regulations.

"From day one I walked in and could see things weren't on the up-and-up," @IamBrookJackson stated on #CHDTV. Ventavia Research Group, the subcontractor conducting the trials for Pfizer's vaccine, did not properly obtain informed consent, they also unblinded patients, fraudulently removed information from patient documents, and subsequently concealed these violations from Pfizer.

As a doctor who studied about these index in depth in our MBBS (Social and Preventive medicine) it hurts. As a citizen I feel ashamed on the ignorance of our politicians on science and health.

Global Hunger index (2023) India ranks 111 out of 125 countries in terms of 'hunger. Last year in 2022, India was ranked 107th in the list of 121 countries and in 2021, India was ranked 101st in the ranking of 116 countries.

As our minister @smritiirani says this report is not based on a random company calling you in the morning and asking are you hungry. This is a blatant lie which is unacceptable and unbelievable.

Freemasonry

Anderson was a Freemason, the Master of a Masonic lodge, and a Grand Warden of the Grand Lodge of London and Westminster (later known as the Premier Grand Lodge of England and in the 19th century as the United Grand Lodge of England). He was a member of the Royal Society, and a friend of Isaac Newton and John Theophilus Desaguliers.[3] He was commissioned in September 1721 by the Grand Lodge to write a history of the Free-Masons, and it was published in 1723 as *The Constitutions of the Free-Masons*. Anderson's name does not appear on the title page, but his authorship is declared in an appendix.

Anderson's work, although of the first importance to the history of freemasonry, is unfortunately marred by a number of extravagant claims which are simply incredible. Indeed, it was shown at the tercentenary conference of the respected Quatuor Coronati research Lodge at Queens' College, Cambridge, that Anderson's history of the founding of the Grand Lodge is doubtful, since the public houses mentioned could

For a list of articles on the history of specific subjects, rites and jurisdictions within the general heading of Freemasonry, see WikiProject Freemasonry.

The **history of Freemasonry** encompasses the origins, evolution and defining events of the fraternal organisation known as Freemasonry. It covers three phases. Firstly, the emergence of organised lodges of operative masons during the Middle Ages, then the admission of lay members as "accepted" (a term reflecting the ceremonial "acception" process that made non-stone masons members of an operative lodge) or "speculative" masons, and finally the evolution of purely speculative lodges, and the emergence of Grand Lodges to govern them. The watershed in this process is generally taken to be the formation of the first Grand Lodge in London in 1717. The two difficulties facing historians are the paucity of written material, even down to the 19th century, and the misinformation generated by masons and non-masons alike from the earliest years.

Freemasonry's long history includes its early development from organised bodies of operative stonemasons to the modern system of speculative lodges organised around regional or national "Grand Lodges".

Early Masonic sources

The earliest masonic texts each contain some sort of a history of the craft of masonry. The oldest known work of this type, The Halliwell Manuscript, also known as Regius Poem, dates from between 1390 and 1425. This document has a brief history in its introduction, stating that the "craft of masonry" began with Euclid in Egypt, and came to England in the reign of King Athelstan (924–939).[1] Shortly afterwards, the Matthew Cooke Manuscript traces masonry to Jabal, son of Lamech (Genesis 4: 20–22), and tells how this knowledge came to Euclid, from him to the Children of Israel (while they were in Egypt), and so on through an elaborate path to Athelstan.[2] This myth formed the basis for subsequent manuscript constitutions, all tracing masonry back to biblical times, and fixing its institutional establishment in England during the reign of Athelstan.[3]

Shortly after the formation of the Premier Grand Lodge of England, James Anderson was commissioned to digest these "Gothic Constitutions" in a palatable, modern form. The resulting constitutions are prefaced by a history

institutional establishment in England during the reign of Athelstan.[3]

Shortly after the formation of the Premier Grand Lodge of England, James Anderson was commissioned to digest these "Gothic Constitutions" in a palatable, modern form. The resulting constitutions are prefaced by a history more extensive than any before, again tracing the history of what was now freemasonry back to biblical roots, again forging Euclid into the chain. True to his material, Anderson fixes the first grand assembly of English Masons at York, under Athelstan's son, Edwin, who is otherwise unknown to history.[4] Expanded, revised, and republished, Anderson's 1738 constitutions listed the Grand Masters since Augustine of Canterbury, listed as *Austin the Monk*.[5] William Preston's *Illustrations of Freemasonry* enlarged and expanded on this masonic creation myth.[6]

In France, the 1737 lecture of Chevalier Ramsay added the crusaders to the lineage. He maintained that *Crusader Masons* had revived the craft with secrets recovered in the Holy Land, under the patronage of the Knights Hospitaller. At this point, the history of the craft in Continental Freemasonry diverged from that in England.[7]

Early Masonic sources

The earliest masonic texts each contain some sort of a history of the craft of masonry. The oldest known work of this type, The Halliwell Manuscript, also known as Regius Poem, dates from between 1390 and 1425. This document has a brief history in its introduction, stating that the "craft of masonry" began with Euclid in Egypt, and came to England in the reign of King Athelstan (924–939).[1] Shortly afterwards, the Matthew Cooke Manuscript traces masonry to Jabal, son of Lamech (Genesis 4: 20–22), and tells how this knowledge came to Euclid, from him to the Children of Israel (while they were in Egypt), and so on through an elaborate path to Athelstan.[2] This myth formed the basis for subsequent manuscript constitutions, all tracing masonry back to biblical times, and fixing its institutional establishment in England during the reign of Athelstan.[3]

Shortly after the formation of the Premier Grand Lodge of England, James Anderson was commissioned to digest these "Gothic Constitutions" in a palatable, modern form. The resulting constitutions are prefaced by a history

The Pfizer “vaccine” never got to India for 2 reasons:

1) The Indian government insisted on a local trial which Pfizer flatly refused.

2) Pfizer insisted on legal immunity which the Indian government flatly refused.

TIME TO START WITH THE ARRESTS

Pfizer's initial application showed that in their trial there were less deaths in the vaccinated groups (hey aren't the vaccines great !!)

Pfizer presented data showing two vaccine deaths and four placebo deaths as of December 10, 2020, but this was incorrect at the time of the EUA request presentation, and the correct data was available in Pfizer's own documentation and, thus, also available to the FDA.

But the evidence shows that Pfizer delayed recording deaths in Case Report Forms (CRFs), which allowed the company to not report those deaths as part of its emergency use authorization (EUA) data filing with the Food and Drug Administration (FDA).

Post your reply

As of November 14, 2020, the data cutoff for the EUA dataset, Pfizer possessed data showing that the vaccine arm of the COVID-19 mRNA vaccine clinical trial had the same number of deaths as the placebo arm. In other words, there was no evidence of Pfizer's COVID vaccine having a positive impact on death outcomes.

It was fraud from the start.

Had the death data that was available to Pfizer before November 14, 2020, and which showed no positive impact on death outcomes, been presented at the December 10, 2020, Vaccines and Related Biologics Products Advisory Committee (VRBPAC) Meeting for Pfizer's COVID vaccine emergency use authorization request, it would have been very difficult, if not impossible, for the VRBPAC members to vote to authorize Pfizer's EUA.

Instead, Pfizer seemingly buried two "inconvenient" deaths from the vaccinated arm until after the data cutoff date, thus inaccurately showing twice as many deaths in the placebo arm of its trial on

Instead, Pfizer seemingly buried two “inconvenient” deaths from the vaccinated arm until after the data cutoff date, thus inaccurately showing twice as many deaths in the placebo arm of its trial on December 10, 2020.

On December 11, 2020, the FDA granted the EUA for Pfizer’s vaccine based on inaccurate data, and that data-related negligence has negatively impacted the health of countless people worldwide

But Pfizer have the ABC and rest of the mainstream media covering for them and Albanese is covering for them by running a whitewash of a Covid inquiry.

On its live Parliamentary stream today, the BBC saw fit to broadcast a banner containing comments directly contradicting some aspects of @ABridgen's speech today.

It is highly inappropriate for @BBC to display any commentary on speeches being made on this stream.

The stream is meant to be a faithful broadcast of goings on in the House, not a news site or forum for debate (other than by those in the House).

Has the BBC ever displayed commentary before which contradicts speeches being given by MPs?

Got bitten by an animal. Needed rabies shots. At @fortis_hospital Vasant kunj, I've been waiting for 1.5 hours, sent from one counter to another, while in pain and with fever. All hospitals give you shots through their emergency ward. Fortis is special in that they love extracting money from patients with useless procedures. The fact that I need emergency treatment is lost in the greedy corporate maze.

I can't wait to get out of here.

'The experimental Covid vaccines are not safe and they're not effective. Despite there only being limited interest in the chamber from colleagues. I'm very grateful for those that have attended. You can see from the public gallery there is considerable public interest.

I would implore all members of the house and those not present to support calls for a three hour debate on this important issue....

On this day in 1961, Fidel Castro's forces defeated the invading CIA-trained mercenaries aided by the US at the Bay of Pigs, Cuba🇨🇺. After delivering a humiliating defeat to the US, Fidel Castro said this in a speech:

'The US government says that a socialist regime here threatens US security. But what threatens the security of the North American people is the aggressive policy of the warmongers of the United States. What threatens the security of the North American family and people is the violence, that aggressive policy, that policy that ignores the sovereignty and the rights of other peoples...that aggressive policy can give rise to a world war, and that world war can cost the lives of tens of millions of North Americans.'

None of the US officials in this image have Israeli citizenship.

This post promotes antisemitism, specifically the "dual loyalty" trope - that Jews are not to be trusted because their true allegiance is to their religion, rather than to their country.

Iran has warned its citizens to leave Lebanon within 24 hours

After a whole list of countries that called their citizens to leave Lebanon, Iran also did.

This means that the chances are high that Israel will still invade Lebanon and deal with Hezbollah instead of Gaza.

Hezbollah is the real threat to the Zionists and far greater than Gaza and Hamas. Well, the chances are high that the Zionists have made a decision to go "all in" on Hezbollah and settle on Lebanese territory.

While the US will help keep Gaza under siege without electricity, water, food and normal living conditions for children and civilians.

Croatian MEP, Mislav Kolakušić, has some strong words for the "climate change" zealots at the EU Parliament:

"[The role of farmers in the Net Zero transition is to disappear]. Why? Because [they] are interfering with the new, insane ideology of complete control over the population, for which—in the near future—the only food will be artificially created food [and insects]."

Oswald's contacts with Kostikov were previously known and have long stoked speculation that the KGB may have had a hand in the assassination. But their interactions at the Soviet Embassy in Mexico City nonetheless grabbed headlines in both Russian and Western media following the October 26 release of nearly 3,000 records on Kennedy's killing.

But the links between Kostikov, who was serving as vice consul at the embassy as Oswald tried in vain to get a Soviet visa there in September 1963, and the KGB's "assassination" department appear to be far from definitively established, according to previously classified documents now available to the public.

As the U.S. website MuckRock noted this week, in a now declassified memo to the CIA's director in September 1964, FBI head J. Edgar Hoover said his agency's files "do not contain any information to fully support" the CIA's assessment that Kostikov worked for the KGB's 13th Department.

"We're undergoing a soft coup... under the pretext of pandemic preparedness and the biosecurity agenda."

Dr. Meryl Nass explains how the WHO's proposed pandemic treaty will enable the WHO "to take over jurisdiction of everything in the world by saying that climate change, animals, plants, water systems [and] ecosystems are all central to health".

In addition to that, it will remove human rights protections, enforce censorship and digital passports, require governments to push a single "official" narrative, and enable the WHO to declare "pandemics" on a whim.

> Yes, but this is not just a question of law. The only ones who could settle the war against Ukraine are the Americans. At the peace negotiations in Istanbul in March 2022 with Rustem Umerov, the Ukrainians did not agree on peace because they were not allowed to. For everything they discussed, they first had to ask the Americans. I had two talks with Umerov, then a one-on-one meeting with Putin, and then with Putin's envoy. Umerov opened the conversation with greetings from Zelensky. As a compromise for Ukraine's security guarantees, the Austrian model or the 5+1 model was proposed. Umjerow thought that was a good thing. He also showed willingness on the other points. He also said that Ukraine does not want NATO membership. He also said that Ukraine wants to reintroduce Russian in the Donbass. But in the end, nothing happened. My impression was that nothing could happen, because everything else was decided in Washington. That was fatal. Because the result will now be that Russia will be tied more closely to China, which the West should not want.
>
> *And the Europeans?*
>
> They have failed. There would have been a window in March 2022. The Ukrainians were ready to talk about Crimea. This was even confirmed by the Bild newspaper at the time.
>
> *(Gerhard Schroeder shows a page from the BILD newspaper with the title "Finally peace in sight?". It says: "Ukrainian President Volodymyr Zelensky (44) himself had already hinted at concessions for negotiations: He no longer insists on his country's accession to NATO, he told the US broadcaster ABC. And he is also ready for a 'compromise' on Crimea and the breakaway provinces in the Donbass. 'In every negotiation, my goal is to end the war with Russia,' Zelensky told BILD.*

@CartlandDavid

“I gathered all vaccine ingredients into a list and contacted Poison Control. After intros and such, and asking to speak with someone tenured and knowledgeable, this is the gist of that conversation.

Me: My question to you is how are these ingredients categorized? As benign or poison? (I ran a few ingredients, formaldehyde, Tween 80, mercury, aluminum, phenoxyethanol, potassium phosphate, sodium phosphate, sorbitol, etc.)

He: Well, that's quite a list... But I'd have to easily say that they're all toxic to humans... Used in fertilizers... Pesticides... To stop the heart... To preserve a dead body... They're registered with us in different categories, but pretty much poisons. Why?

Me: If I were deliberately to feed or inject my child with these ingredients often, as a schedule, obviously I'd put my daughter in harm's way... But what would legally happen to me?

Here are just SOME vaccine ingredients present in routine vaccines:

■ Formaldehyde/Formalin - Highly toxic systematic poison and carcinogen.

■ Betapropiolactone - Toxic chemical and carcinogen. May cause death/permanant injury after very short exposure to small quantities. Corrosive chemical.

■ Hexadecyltrimethylammonium bromide - May cause damage to the liver, cardiovascular system, and central nervous system. May cause reproductive effects and birth defects.

■ Aluminum hydroxide, aluminum phosphate, and aluminum salts - Neurotoxin. Carries risk for long term brain inflammation/swelling, neurological disorders, autoimmune disease, Alzheimer's, dementia, and autism. It

■ Aluminum hydroxide, aluminum phosphate, and aluminum salts - Neurotoxin. Carries risk for long term brain inflammation/swelling, neurological disorders, autoimmune disease, Alzheimer's, dementia, and autism. It penetrates the brain where it persists indefinitely.

■ Thimerosal (mercury) - Neurotoxin. Induces cellular damage, reduces oxidation-reduction activity, cellular degeneration, and cell death. Linked to neurological disorders, Alzheimer's, dementia, and autism.

■ Polysorbate 80 & 20 - Trespasses the Blood-Brain Barrier and carries with it aluminum, thimerosal, and viruses; allowing it to enter the brain.

■ Glutaraldehyde - Toxic chemical used as a disinfectant for heat sensitive medical equipment.

■ Fetal Bovine Serum - Harvested from bovine (cow) fetuses taken from pregnant cows before slaughter.

What did Anandiben say about heart attack at a young age?

Chief Minister Anandiben Patel, present on the occasion of Khodaldham Bhumi Poojan in Patan, also mentioned the increasing number of heart attacks in the country while addressing the occasion. Anandiben said, "Many people are dying of heart attack in the country, some people died of heart attack during Navratri, it is necessary to analyze this whole matter. The incidence of death due to heart attack while playing Garba has increased. An analysis of why heart attack cases have increased is necessary. It is wrong to say that the cases of heart attack have increased due to Corona. 'Analysis of how many young people die of heart attack in a year is needed'.

🚨BREAKING: ISRAELI HOSTAGE EXPOSES DISTURBING ACCOUNT

In a shocking revelation, Israeli hostage Yasmin Porat has raised disconcerting questions about the tragic events of October 7.

The Testimony:

In an exclusive interview, Porat disclosed that Israeli forces eliminated everyone, including hostages, amid heavy crossfire and tank shelling.

Censorship Concerns and Unfiltered Truth:

Porat's account mysteriously vanished from the "Haboker Hazeh" program, sparking questions of potential censorship. The full interview has also been completely censored off of all social media platforms and off of Kan's website. However, her unfiltered testimony has already resonated widely on social media.

Censorship Concerns and Unfiltered Truth:

Porat's account mysteriously vanished from the "Haboker Hazeh" program, sparking questions of potential censorship. The full interview has also been completely censored off of all social media platforms and off of Kan's website. However, her unfiltered testimony has already resonated widely on social media.

In her interviews, Porat reveals a shocking twist: Palestinian fighters treated the hostages humanely, offering them hope of a safe passage to Gaza, despite the chaos. The compassionate act stands in stark contrast to the chaos that unfolded.

The captive group's relief was brutally disrupted as Israeli forces arrived, unleashing a storm of gunfire that wounded fighters and hostages alike.

She said this about the Israeli forces to Israeli radio:

"They eliminated everyone, including the hostages."

Amid this revelation, questions arise about what truly transpired on October 7, shedding new light on a day marked by profound sorrow for both Israelis and Palestinians.

The harrowing testimony of Yasmin Porat challenges the narrative, emphasizing the importance of a thorough, impartial investigation into the events of that fateful day.

16-year-old ran personal best before collapsing, dying at Texas cross-country meet

By Patrick Reilly

Published Oct. 21, 2023, 10:34 p.m. ET

A Texas teenager tragically collapsed and died at a cross-country meet moments after breaking his personal time record, according to local reports.

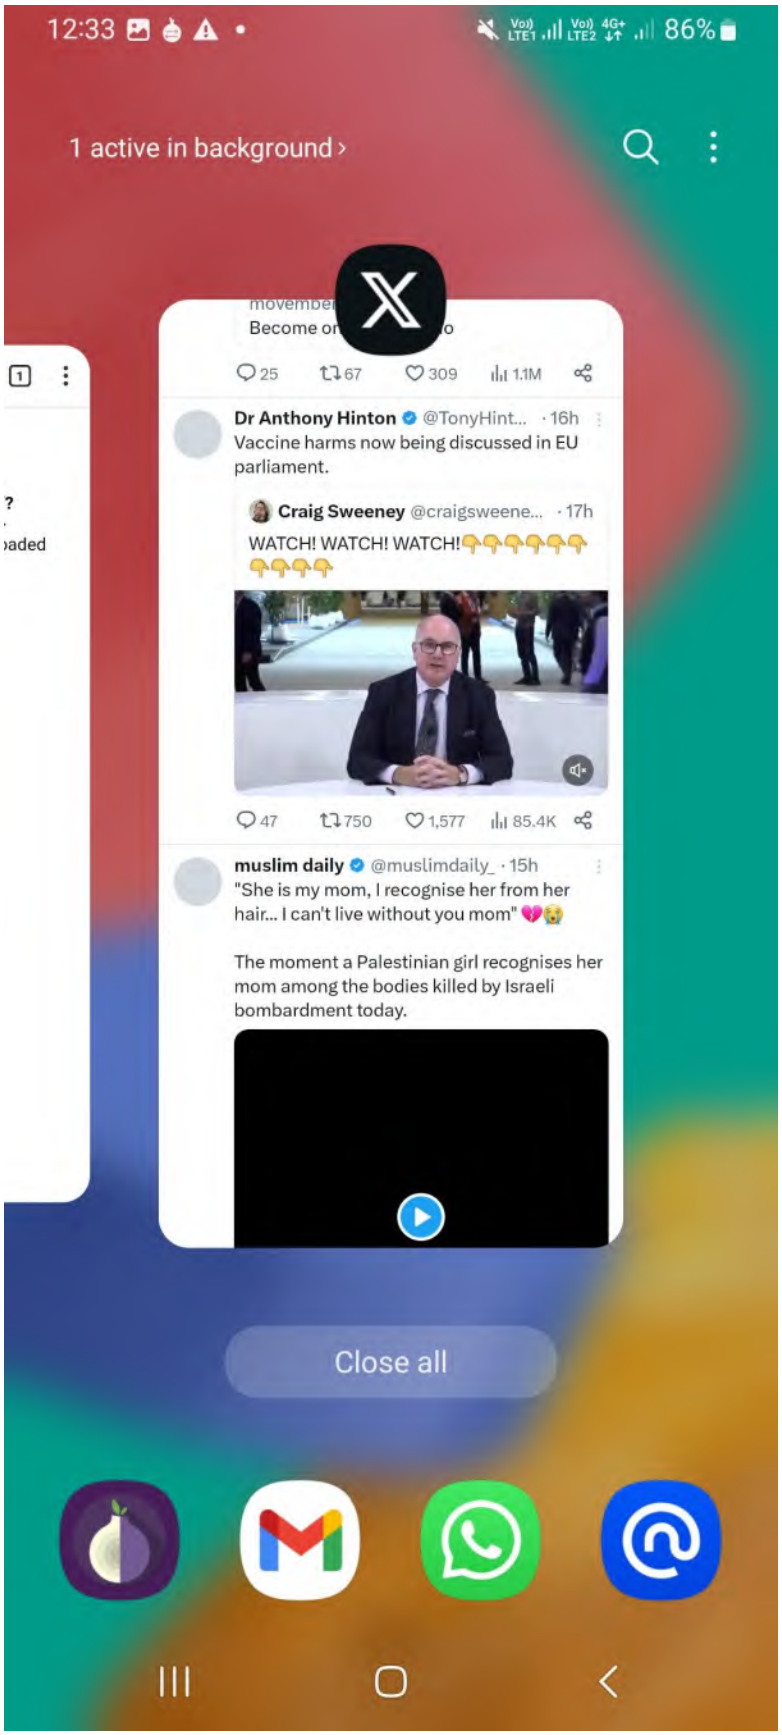

Angel Hernandez, a 16-year-old sophomore at Chisholm Trail High School, had just completed a 5K at a district track meet in Haltom City in Tarrant County on Oct. 13 when he collapsed right after crossing the finish line, witnesses told KHOU.

The teen's concerned friends walked him over to a water fountain where he fell again. He was rushed to a local hospital where he died an hour later.

The Rothschild Family Instructed And Paid For The British Government (Who They Own) To Create A Zionist State In Palestine..... This is the most incredible testimony from the Rothschilds himself on how they were able to pursuade the British empire to steal the Muslim lands in Palestine and hand them over to Jews. Listen carefully when he says that zinest movement actually came from Eastern Europe..... Zionists are Russian khazarian Jews, not semites.

In 1947, Ruby moved to Dallas, purportedly because of the failure of merchandise deals in Chicago and to help operate his sister's nightclub.[7] Soon afterward he and his brothers shortened their surnames from Rubenstein to Ruby. The stated reason for this was that the name "Rubenstein" was too long and that he was "well known" as Jack Ruby.[8] Ruby later went on to manage various nightclubs, strip clubs, and dance halls. He developed close ties to many Dallas Police officers who frequented his nightclubs, where he provided them with free liquor, prostitutes and other favors.[9]

Ruby never married and had no children.[10] At the time of the assassination, Ruby was living with George Senator, who referred to Ruby as "my boyfriend" during the Warren Commission hearing, but denied the two being homosexual lovers. Warren Commission lawyer Burt Griffin later told author Gerald Posner: "I'm not sure if Senator was honest with us about his relationship with Ruby. People did not advertise their homosexuality in 1963".[11]

Some critics have said that Ruby was involved in criminal activity[12][6][13] and linked to organized crime.[14][15][16] He had been involved in illegal

A reporter asked Oswald, "Did you kill the President?" and Oswald answered, his voice breaking, "No, I have not been charged with that. In fact, nobody has said that to me yet. The first thing I heard about it was when the newspaper reporters in the hall asked me that question."[25] A reporter told Oswald that he had been charged and Oswald looked shocked.[26] Newsreel footage from WFAA-TV (Dallas) and NBC shows that Ruby impersonated a newspaper reporter during a press conference held by District Attorney Henry Wade at Dallas Police Headquarters that night.[6]:349 Wade briefed reporters that Oswald was a member of the anti-Castro Free Cuba Committee. Ruby was one of several people there who spoke up to correct Wade, saying, "Henry, that's the Fair Play for Cuba Committee", a pro-Castro organization.[27][28][6]:349–350 Ruby later told the FBI that he had his Colt Cobra .38 revolver in his right pocket during the press conference.[29][30][6]:3501

White House correspondent Seth Kantor was a passenger in Kennedy's motorcade. He testified that he had visited Parkland Hospital after Kennedy was shot, and that he felt a tug on his coat as he entered the hospital at about 1:30 p.m. He turned around to see Jack Ruby, who called him by his first name and shook his hand.[62]:78–82[44]:41 He said that he had become acquainted with Ruby while he was a reporter for the *Dallas Times Herald* newspaper.[62]:72[44]:vi According to Kantor, Ruby asked him if he thought that it would be a good idea for him to close his nightclubs for the next three nights because of the tragedy, and Kantor responded without thinking that doing so would be a good idea.[44]:41[63][62]:80

Ruby denied that he had been at Parkland Hospital and the Warren Commission dismissed Kantor's testimony, saying that the encounter at Parkland Hospital would have to have taken place in a span of a few minutes before and after 1:30 pm, as evidenced by telephone company records of calls made by both people. The commission also pointed to contradictory witness testimony and to the lack of video confirmation of Ruby at the scene.[24]:335–337 The Commission concluded

Lieutenant Billy Grammer was a dispatcher for the Dallas Police Department. He said that he received an anonymous phone call at 3 a.m. on November 24 from a man who knew his name. The caller told him that he knew of the plan to move Oswald from the basement and warned that, unless the plans were changed, "we are going to kill him". After Oswald was shot, Grammer claimed to have recognized Ruby as the caller. Grammer believed that Ruby's shooting of Oswald was "a planned event".[65][66]

Detective Don Archer testified to the Warren Commission that he said to Ruby, "Jack, I think you killed him." He stated that Ruby looked him straight in the eye and said, "Well, I intended to shoot him three times." Kantor believed that Ruby's response to Archer did not suggest a spontaneous reaction, and the word "intended" implied having prior intention.[44]:192

Ruby's explanation for killing Oswald would be exposed "as a fabricated legal ploy", according to the House Select Committee on Assassinations. Ruby wrote a note to attorney Joseph Tonahill: "Joe, you should know this. My first lawyer Tom Howard told me to say that I shot Oswald so that Caroline and Mrs. Kennedy wouldn't have to come to Dallas to testify. OK?"[64]:158[67][6]:353[43]

Criminal investigations against WHO boss Tedros in his home country.
WHO Director-General Tedros Adhanom Ghebreyesus has long been accused of illegal activities as a member of the government in his home country of Ethiopia. Now it appears that criminal investigations have been initiated there. One of the interesting things about this is that Ethiopia recently joined BRICS after being an aspirant for membership for a long time.

Violation of Informed Consent: Polio is a side effect of the polio vaccine. This condition is called Vaccine Associated Paralytic Poliomyelitis or VAPP. Not just the recipient but close contacts of the recipient are at risk of contracting polio. This fact was deliberately hidden from the masses per this article by Dr. Yash Paul - former member of Polio Eradication Committee of Indian Academy of Pediatrics.

🚨 The media is SILENT!

Grand County Sheriff's Department statement posted on Facebook saying all four people on board the plane were killed.

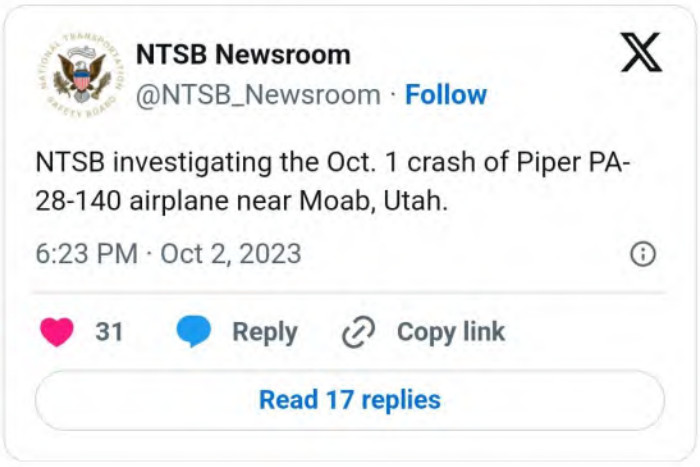

On Monday, the sheriff's department noted: "The county's dispatch center received a report of an isolated incident involving a single aircraft taking off from the Canyonlands Regional Airport and then crashing into the ground."

"Senator Doug Larsen, his wife Amy, and their two children died in a plane crash last evening in Utah," Hogue's email quoted by CBS News read,

National Transportation Safety Board has commenced an investigation into the small piper plane crash.

Local emergency services and authorities promptly responded to the call after a medical aircraft s d the downed plane, the sheriff's office said.

They were looking for Oswald. They didn't have a warrant. They appeared highly agitated and serious. They asked whether Oswald owned a gun. Paine said no. She translated the question to Marina, who said yes. Paine was aghast. "No mention had yet been made of John Kennedy," Mallon wrote, but Paine "now understood what this was really about."

Marina pointed to the blanket roll. An officer picked it up. It instantly folded. There was nothing inside to keep it straight.

The rifle wasn't there.

"That was when I had this feeling," Paine told Mallon. " 'My God, it could have been Lee.' That he came out last night, that the gun had been there ..."

Political correctness is communist propaganda writ small. In my study of communist societies, I came to the conclusion that the purpose of communist propaganda was not to persuade or convince, not to inform, but to humiliate; and therefore, the less it corresponded to reality the better. When people are forced to remain silent when they are being told the most obvious lies, or even worse when they are forced to repeat the lies themselves, they lose once and for all their sense of probity. To assent to obvious lies is in some small w...

In violation of the implied right of free poltical communication under *The Constitution* and the provisions contained in *The Bill of Rights 1688* which make it unlawful to interfere with a Member of Parliament's communications, under the Morrison regime the Department of Home Affairs paid over $1 million to a multi-national advertising agency M & C Saatchi to spy on my social media posts.

The Department of Home Affairs then dobbed in me to Facebook claiming my post was "misinformation" (posts that accurately questioned Big Pharma's lies about the efficacy of the vaccine) - and although I'm yet to identify the exact post - we know that **even Facebook disagreed and said the post in question wasn't misinformation.**

In the 1930s, 2 separate polio vaccines were made available in US, one by Dr. Maurice Brodie (killed virus) and the other by Dr. John Kolmer (attenuated).

Both vaccines were discontinued following reports of 12 cases of paralysis following vaccination, including 6 deaths.

In the modern context, once can argue that we have documented side effects orders of magnitude higher than the above, but still polio vaccines continue to be mass administered.

Now that the hysteria has died down a bit, let's look at who has benefitted most from the conflict in the Middle East.
The Biden regime got a much needed narrative shift from the disaster in Ukraine, and are attempting to use the chaos to package funding for Ukraine.
MAGA GOP were making a stand over the Speakership, largely to stop funding for Ukraine. Now much of the Right are supportive of funding Israel, and the GOP are now more susceptible to make a deal for Ukraine in order to fund Israel as well.
Now the Deep State have two wars that need funding, one that appeals to each political party. They have successfully reinvigorated public and political support in the war machine, and the laundry mat stays open.
Now that we see how much the Deep State/Biden regime have benefitted from the scenario, combine that with Israeli Intelligence ignoring warnings of a possible attack, the unfathomably slow response time by IDF, and the ensuing media propaganda barrage; the situation looks all the more suspicious.

I'm just trying to drink beer and watch football, and now Chris Wray and the Five Eyes Intel leaders are on my TV telling me how Chinese espionage is the "greatest threat to democracy we have ever faced".
Can't even watch football in peace without being propagandized.

The GOP are either incompetent or quietly exercising genius.
I joked early on that the House should just keep holding votes all the way until January 2025, to ensure Congress can't send any more of our money to Ukraine or Israel.
Can't fund WW3 without a budget.

Political correctness is communist propaganda writ small. In my study of communist societies, I came to the conclusion that the purpose of communist propaganda was not to persuade or convince, not to inform, but to humiliate; and therefore, the less it corresponded to reality the better. When people are forced to remain silent when they are being told the most obvious lies, or even worse when they are forced to repeat the lies themselves, they lose once and for all their sense of probity. To assent to obvious lies is in some small way to become evil oneself. One's standing to resist anything is thus eroded, and even destroyed. A society of emasculated liars is easy to control. I think if you examine political correctness, it has the same effect and is intended to.

The barbarism in the Middle East is having the same impact as covid. It's being used to reduce civil liberties. It's created a new wave of hysterical and vicious people. It's dividing the public, while strengthening criminal governments. This all gets much worse with a wider war.

Correction & clarification:
In Oct 2019 (same time as Event 201), the request was made to remove hydroxychloroquine from OTC status. The approval to do so was officially made on November 12, 2019--just one month before the outbreak commenced.
Insanely coincidental timing.

Many people find it difficult to believe that Oswald was trained by the CIA. I'm not talking about the silly two Oswald theory that claims two kids were trained from an extremely early age to be spies. I'm referring to a United States Government Memorandum to Mr. James J. Rowley Chief, U.S. Secret Service from Mr. John McCone, Director, Central Intelligence Agency dated March 3, 1964

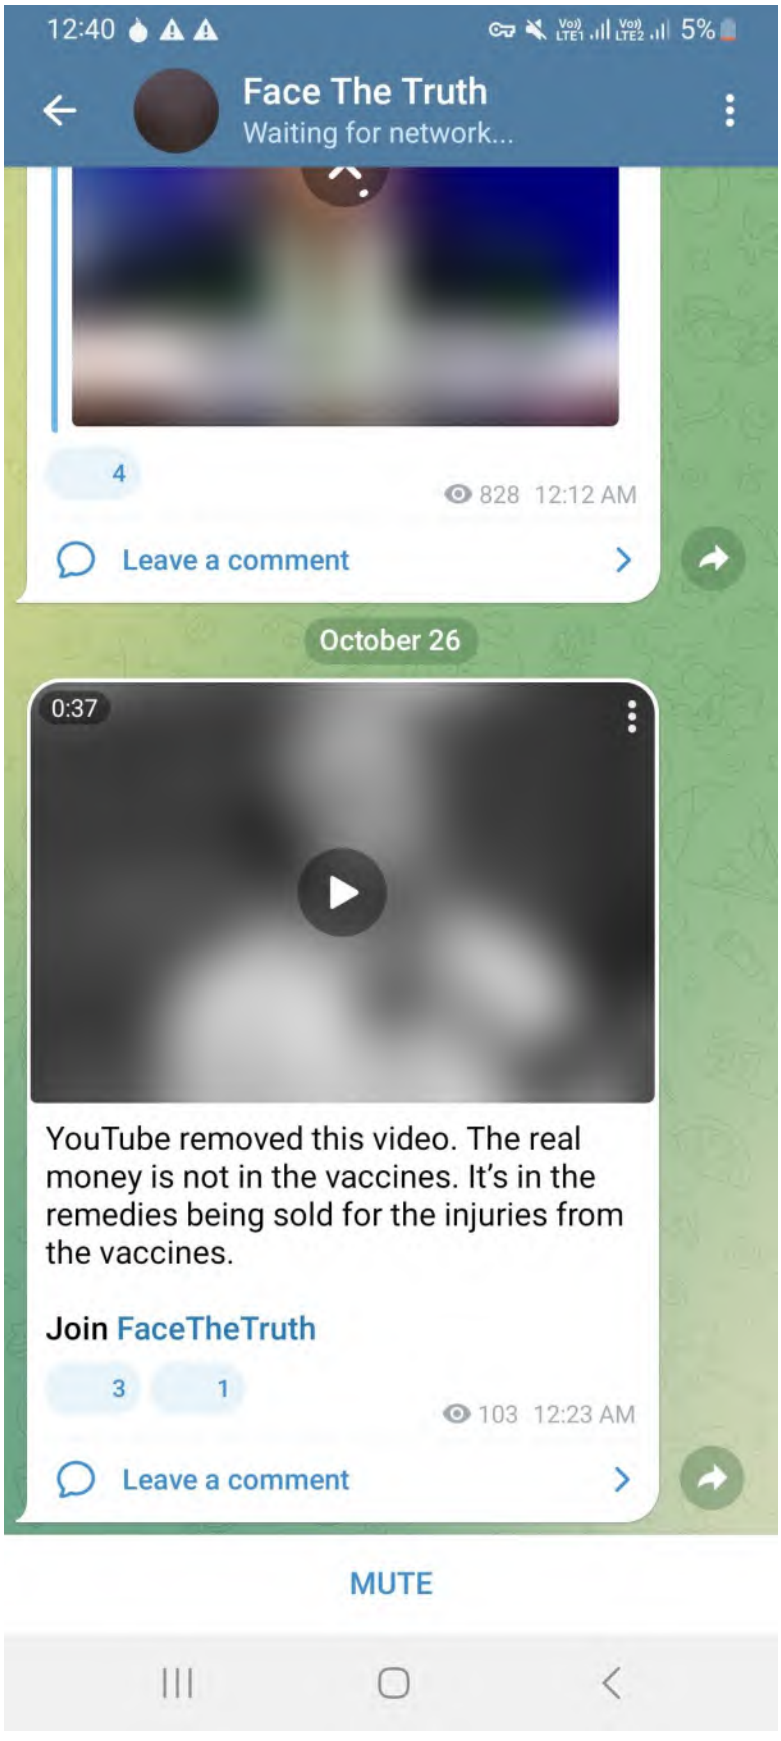

"Oswald subject was trained by this agency, under cover of Office of Naval Intelligence, for Soviet assignments. During preliminary training, in 1957, the subject was active in aerial preliminary training, in 1957, the subject was active in aerial reconnaissance of mainland China and maintained a security clearance up to the "confidential" level. His military records during this period are open to your agency and I have directed they be forwarded to the Commission. Subject received additional indoctrination at our own Camp Peary site from September 8 to October 17, 1958, and participated in a few relatively minor assignments until arrangements were made for his entry into the Soviet Union in September 1959."

Oswald participated, along with other young men in a false defector program to the USSR.

UNITED STATES GOVERNMENT

Memorandum

DATE March 2, 1964

CO-2-34,030

Mr. James J. Rowley
Chief, U.S. Secret Service

Mr. John McCone
Director, Central Intelligence Agency

SUBJECT: Central Intelligence Report on the Assassination of John Kennedy

In response to the request made by your office on 24 February 1964 re: Lee Oswald's activities and assignments on behalf of this agency and Federal Bureau of Investigation, there follows a narrative summary of the internal subversive activities of the Oswald subject.

I recommend that unless the Commission makes a specific request for specific information contained herein, that this information not be volunteered. This agency has reason to assume that some junior Commission staff members may be potential sources of leaks to the news media or to other agencies; due to the highly sensitive nature of the enclosed material, it would certainly be in the national interest to withhold it at this time - unless there is, of course, a specific request made.

It is my understanding that Mr. Hoover has certain sensitive information within his agency, which has been transferred to his own personal files for safekeeping; he concurs that no material should be voluntarily given to the Commission which might affect the status of field operatives or their safety. He is particularly concerned about the De Bruey memorandum, which Central Intelligence has obtained and which, I understand, you have obtained. It is imperative that this information, at least for the time, remain under wraps.

Oswald subject was trained by this agency, under cover of the Office of Naval Intelligence, for Soviet assignments. During preliminary training, in 1957, subject was active in aerial reconnaissance of mainland China and maintained a security clearance up to the "confidential" level. His military records during this period are open to your agency and I have directed they be forwarded to the Commission.

Subject received additional indoctrination at our own Camp Peary site from September 8 to October 17, 1958, and participated in a few relatively minor assignments until arrangements were made for his entry to the Soviet Union in September 1959. While in the Soviet Union, he was on special assignment in the area of Minsk. It would not be advantageous at this time to divulge the specifics of that assignment; however, if you wish this information, it can

To this day, Morley suggests that the CIA is still hiding 44 documents known to exist in Joannides' personnel file that he said "will shed light on his secret activities" between 1963 in 1978, including information about a CIA operation involving Oswald he said "has never been disclosed."

Whether those documents are released this month, Morley said, is the true test of whether the federal government is prepared to acknowledge the truth about its involvement in Kennedy's death.

"I'm not crazy about the term the smoking gun," Morley said. "I think that's a bit of a cliche. It's not a term that investigative reporters use. But I think in this case, it's appropriate that what we're talking about here is not smoking-gun proof of a conspiracy to kill the president. We're talking about smoking-gun proof of a CIA operation involving Lee Harvey Oswald, that the CIA is still concealing in 2022.

Morales Jr., 58, of Michigan, told Miami's Actualidad Radio that his father was a contract CIA worker, anti-Castro militant, counter-intelligence chief for Venezuela, FBI informant and drug dealer. Morales Sr went by the nickname 'Monkey', and was among the FBI's most infamous informants.

Morales Jr. also recalled the moment when his family, who lived in Miami, learned of President John F. Kennedy's November 1963 assassination, and his father's shock when he allegedly recognized Oswald as one of his sniper trainees.

'When he saw the photo of Lee Harvey Oswald [after the assassination] he realized that this was the same character he had seen on the CIA training field,' Morales Jr. said.

'He saw him, he saw the name tag, but he did not know him because he was not famous yet, but later when my father sees him he realizes that he is the same person.'

🚨NEW REPORT: IDF Veteran Reveals Shocking Evidence That Hamas's Attack on Israel Was an "Inside Job" ⚠️

His statement is astounding:

"First of all, we will start with September 1st. The Israeli government confiscated the weapons of the security teams in the Gaza belt communities. This was done against the will of those security teams. Why this happened, nobody knows.

"Fast forward to September 10th, the municipalities received reports, these are civilians, they received reports of increased tensions on the Gaza border on Jewish holidays. These span from Yom Kippur to Shemini Atzeret, which was on Saturday.

"Those same heads of municipalities asked if they should cancel their festivities in light of the warnings of increased tensions on the border with Gaza. The army said no, don't cancel anything, it

“Those same heads of municipalities asked if they should cancel their festivities in light of the warnings of increased tensions on the border with Gaza. The army said no, don’t cancel anything, it appears we are heading into a period of calm.

“Now, you can assume that the Shin Bet (Israeli Security Agency) did not know about this attack. But that is highly improbable. The state of Israel is probably the most advanced surveillance state in the world. The Gaza border is probably the most heavily surveilled. The Shin Bet, who somehow knew about a guy who had corona in a toy store and tracked him all the way to a soccer stadium during the days of corona, somehow didn’t know about this massive attack planned by thousands of Gazans on pickup trucks and hang gliders.

“Do you really believe that? Are you really that stupid? If you do, I have a bridge to sell you.

“Do you know how long it takes an attack

“Do you really believe that? Are you really that stupid? If you do, I have a bridge to sell you.

“Do you know how long it takes an attack helicopter to get activated and blow up any of those pick up trucks or hang gliders that invaded Israel? Less than 5 minutes. It all could have been over. It could have been a matter of 5 minutes. Instead they had hours to kill thousands and bring back hostages alive, unopposed.

“This is not a breach. That is an inside job.

“And if it is not an inside job, well then that is even worse. Because that means that the IDF is the most incompetent military that ever walked the face of the earth. And now we are supposed to trust these people to invade Gaza. Under the command of a military that a) didn’t see this coming and b) was too incompetent to react to a bunch of pick up trucks invading Israel.

“You tell me which one is worse. That it was an inside job? Or that it was incompetent?

“And if it is not an inside job, well then that is even worse. Because that means that the IDF is the most incompetent military that ever walked the face of the earth. And now we are supposed to trust these people to invade Gaza. Under the command of a military that a) didn’t see this coming and b) was too incompetent to react to a bunch of pick up trucks invading Israel.

“You tell me which one is worse. That it was an inside job? Or that it was incompetent?

“And oh, by the way, now that America is coming with aid, do you really think Israel needs American aid to invade Gaza? Gaza? Their air force is hang gliders, their ground troops are pick up trucks. They don’t even have a tank. And Israel needs American aid to fight them. Are you serious? You don’t think there is anything fishy going on here?”

Recent Spike in Excess Mortality is Making Reinsurers Nervous

By Aaron Smith October 25, 2023

Covid has receded as a direct driver of excess mortality, but three years into the pandemic there's a new spike in mortality that has reinsurers worried.

"The headline fact is that we've still got excess mortality," said **Neil Sprackling**, CEO of U.S. life and health for **Swiss Re**, in an interview at the **Limra** conference on Monday at National Harbor, Md. "There's a spike and it's beginning to have an impact with the general population."

Conclusion from the Evidence.

The result of this brief enquiry may be thus summarized :—

(1.)—Vaccination does not diminish Small-pox mortality, as shown by the 45 years of the Registrar-General's statistics, and by the deaths from Small-pox of our "re-vaccinated" soldiers and sailors being as numerous as those of the male population of the same ages of several of our large towns, although the former are picked, healthy men, while the latter include many thousands living under the most unsanitary conditions.

(2.)—While thus utterly powerless for good, vaccination * is a certain cause of disease and death in many cases, and is the probable cause of about 10,000 deaths annually by five inoculable diseases of the most terrible and disgusting character, which have increased to this extent, steadily, year by year, since vaccination has been enforced by penal laws!

(3.)—The hospital statistics, showing a greater

* The operation itself kills many. The Registrar-General gives, under the head of Cow-pox and other effects [erysipelas, &c.] of vaccination f the years 1881 to 1886, the following deaths of infants under one year. I the country, 255 deaths. In London, 61. Total for the six years, 316.—Ed.

#2. Remember when the CCP 🇨🇳 released CCTV recordings showing people collapsing on the street like sacks of rice, catching themselves with their hands just before impact, and then shaking spasmodically? They said it was one of the Covid symptoms and nobody ever questioned it.

Principal Medical Officer at the **Civil Aviation Safety Authority** (CASA), Dr Manderson, has been absent during our previous senate estimates sessions despite my requests for her to be present.

I asked Dr Manderson questions about her other roles and responsibilities, including her role as supervising GP and her other board positions.

I also asked about her knowledge of pilot adverse events and what research underpins her position that such adverse events as #myocarditis are predominantly caused by the COVID infection rather than the COVID injections.

Her staff appeared anxious to shield her from my line of inquiry. What do they have to hide?

#Zelensky plans a false flag ⚠️ Attack on the German embassy at #Kiev

An informant from the Ukrainian Ministry of #défense revealed that President Zelensky plans to #sauter embassy #allemande in Kiev in order to accuse Russia.

The informant's intelligence indicates that Zelensky's government is preparing a false flag #attaque against the German Embassy in order to create a #prétexte for escalation with Russia. This, because the #Républicains managed to stop the flow of money from #Biden to Kiev in Congress.

The informant, who was recently fired from the Ukrainian Defense Ministry, informed investigative journalist #AliFathi about the plan to blow up the German embassy in Kiev.

The aim is to falsely stage a Russian airstrike and therefore in an attempt to discredit the #KremlinRussie_E .

The aim is to falsely stage a Russian airstrike and therefore in an attempt to discredit the #KremlinRussie_E .

The decision to carry out this attack was made at a special secret meeting of the National Defense and Security Council of Ukraine.

Present were President Volodymyr Zelensky, Commander-in-Chief of the Armed Forces of Ukraine Valery Saluynyy, Head of the Presidential Administration of Ukraine Andryy Yermak, Head of Military Intelligence Kyrylo Budanov, as well as other senior Ukrainian officials and representatives of the Armed Forces .

⚡ The attack is #planifiée for October 31, 2023. ⚡

A witness named #RostislavZamlinsky , a former deputy defense minister, identified himself and said that the secret special meeting of the National Defense and Security Council of Ukraine was held on September 8. President Volodymyr Zelensky chaired the meeting, and also present were the head of the Ukrainian presidential administration Andryi Yermak, the commander-in-chief of the Armed Forces of Ukraine Valery Zaluzny and the head of the Security Service of Ukraine Vasyl Malyuk, as well as the commander of the military intelligence service Kyrylo Budanov.

The witness claims that Ukrainian officials intend to use explosives on the upper floors of the embassy building in central kyiv.

It appears that Zelensky and his subordinates intended to synchronize the explosion with a simulated airstrike exercise by #Iraniens "Shaheed" drones, which are widely used by Russia, according to numerous intelligence sources.

According to the analysis of the documents, the plan is to launch the #drones for this operation from the airport of #Vassylkiv . Such an attack vector will create the false impression that the attack is coming from Crimea 🇷🇺 , which is located in #Russie .

The witness claims that an American #rogue ⚠️ #Militaire linked to #OTAN named Colón-López attended the same meeting. It could be Ramón Colón-López, a senior official of the American forces within the Department of #AirForce .

According to open sources, Colón-López actively cooperates with the command of the Armed Forces of Ukraine, frequently holding meetings and conferences with representatives of the Ukrainian military command.

Colón-López's presence at the meeting indicates that NATO leaders are likely aware of the planned attack and may be involved.

This revelation will likely mark the end

Polio spreads through air, need injectable, not oral, vax: Experts

Dismiss Spread Though Orofaecal Route, Call For Tweak In Strategy

Malathy.Iyer@timesgroup.com

Mumbai: Dr T Jacob John, the expert who pushed for the pulse polio campaign over 25 years back, now wants to tweak the strategy to eradicate the paralysing virus. It begins with "unlearning" a medical statement that polio spreads through the orofaecal route, and also increasing the injectable polio vaccine's dosage in the national polio vaccination programme.

In a letter published in the leading medical journal, The Lancet, on Wednesday, he and Mumbai-based paediatrician Dr Dhanya Dharmapalan underlined that the wild polio virus follows the "respiratory-faecal-oral or faecal-oral route. The "respiratory-faecal" route in the late '90s and '00s, when virtually no cases of wild polio was reported in rich countries, from where all eradication experts came. Low-income countries had polio as well as poor sanitation/hygiene, consequent diarrhoeal diseases, and the experts surmised natural polio was also spreading by faecal-oral route. But that was only a guess," said Dr John, a paediatrician, and virologist from CMC Vellore. The result was the oral polio vaccine (OPV) targeting the intestines. But the strategy didn't work completely, the Global Polio Eradication Initiative(GPEI) has had to set a new target of 2026 from the original 2000.

Dr Dharmapalan said that polio infections have been noted in infancy during exclusive breastfeeding with a median age of infection of 15 months. The wild polio virus's basic reproduction number was 40 — 45, whereas the R0 of measles was 18. "Polio is, therefore, more contagious than measles," she added.

The letter in Lancet journal states that GPEI's second strategy was to continue using vaccine virus (which is unlike natural virus) beyond their epidemiological need. For instance, although wild poliovirus type 2 was eradicated in October 1999, the OPV type 2 vaccine continued until April 2016.

"This would have resulted in unknown numbers of vaccine-associated paralytic polio cases and many outbreaks," said the doctors.

The best course of action for the global programme would be to promote IPV (three doses per child), and to withdraw OPV from countries that reach 95% coverage in children younger than five years, they added. In India, the medical vaccination programme gives each child two shots of the injectable polio vaccine, said BMC executive health officer Dr Mangala Gomare. In Mumbai, she added, "We haven't had a case in Mumbai since the last case in March 2008."

However, the government programme gives only a fraction of the dose recommended, globally. Even in the private sector in India, as Dr Nitin Shah of the Indian Academy of Paediatrics said, the injectable vaccine is given as a part of six-vaccines-in-one shot in the sixth, tenth and 14th week. "Thereafter, children receive two boosters—at 15 to 18 months and at five years of age," Dr Shah added.

The doctors also recommended increasing the injectable polio vaccine's dosage in the national polio vaccination programme

When the US or their allies kill civilians, it's just "the nature of conflict".

When Russia or any of the West's enemies kill civilians, then it's reprehensible, unjustifiable, immoral, unethical, war crimes, etc.

The rules of conflict don't apply to the self-righteous.

When asked if he didn't bring a sack with him the next morning to work, he stated that he did, and when asked as to the contents of the sack, he stated that it contained his lunch. Then, when asked as to the size or shape of the sack, he said "Oh, I don't recall, it may have a small sack or a large sack, you don't always find one that just fits your sandwiches." When asked as to where he placed the sack when he got in the car, he said in his lap, or possibly the front seat beside him, as he always did because he didn't want to get it crushed. He denied that he placed any package in the back seat. When advised that the driver stated that he had brought out a long parcel and placed it in the back seat, he stated "Oh, he must be mistaken or else thinking about some other time when he picked me up."

When asked as to his whereabouts at the time of the shooting, he stated that when lunch time came, and he didn't say which floor he was on, he said one of the Negro employees invited him to eat lunch with him and he stated "You go on down and send the elevator back up and I will join you in a few minutes." Before he could finish whatever he was doing, he stated, the commotion surrounding the assassination took place and when he went down stairs, a policeman questioned him as to his identification and his boss stated that "he is one of our employees" whereupon the policeman had him step aside momentarily. Following this, he simply walked out the front door of the building. I don't recall that anyone asked why he left or where or how he went. I just presumed that this had been covered in an earlier questioning.

A. J. HIDELL IDENTIFICATION CARD---Captain Fritz asked him if he knew anyone by the name of A. J. Hidell and he denied that he did. When asked if he had ever used this name as an alias, he also made a denial. In fact, he stated that he had never used the name, didn't know anyone by this name, and never had heard of the name before. Captain Fritz then asked him about the I.D. card he had in his pocket bearing such a name and he flared up and stated "I've told you all I'm going to about that card. You took notes, just read them for yourself, if you want to refresh your memory." He told Captain Fritz that "You have the card. Now you know as much about it as I do."

About 11:00 a.m. or a few minutes thereafter, someone handed through the door several hangers on which there were some trousers, shirts, and a couple of sweaters. When asked if he wanted to change any of his clothes before being transferred to the County jail, he said "Just give me one of those sweaters." He didn't like the one they handed him and insisted on putting on a black slip-over sweater that had some jagged holes in it near the front of the right shoulder. One cuff was released while he slipped this over the head, following which he was again cuffed. During this change of clothing, Chief of Police Curry came into the room and discussed something in an inaudible undertone with Captain Fritz, apparently for the purpose of not letting Oswald hear what was being said. I have no idea what this conversation was, but just presume they were discussing the transfer of the prisoner. I did not go downstairs to witness the further transfer of the prisoner.
